Projects

Client

Global Tuch – *IT Infrastructure Solutions*
Github : Private-Code
Live : http://www.globaltuch.com/

- Global Tuch Solutions is a local firm partnered with global brands to push out IT security and IT solutions using advanced cutting edge technology to increase client's productivity.
- This is a React Project.

- Tools used are React-Bootstrap for Styling, Visual Studio Code as Code Editor and Deployed on Heroku Cloud Application Platform.

Personal

CookBook – *Belly Rules the Mind*
Github：https://github.com/zeba-tahreen/CookBook
Live：******* Link ***************

- CookBook is an open source app for every person to look for easy quick recipes created by common people who are chefs by themself. This app is to inspire and encourage people to experiment their cooking skills to eat homemade food everyday.
- Languages used are MongoDB, Express, React, Redux and Node.js.
- Tools used are Passport Js for registration and login authentication, Reactstrap, Styled Components with Bootstrap as NPM Packages for Styling, Visual Studio Code as Code Editor and Deployed on Heroku Cloud Application Platform.

Group

Common Grounds – *Let's Meet*
Github：https://github.com/krenaldi/Common-Grounds
Live：https://krenaldi.github.io/Common-Grounds

- Common Grounds was the first group project of our academic batch. Our idea was to find an easy and fun way to schedule a public get-together, so that we can meet our friends or colleagues without usual hassle.
- Languages used are MongoDB, Express, React, JavaScript, AJAX.
- Tools used are Passport Js and Bcrypt Js for registration and login authentication, Material UI with CSS and SASS for Styling, Visual Studio Code as Code Editor and Deployed on Heroku Cloud Application Platform.
